

Ethical Considerations Form

Manuscripts submitted for publication must comply with the following **ethical considerations/ approval must be enclosed:**

1. Informed Consent:

- Informed consent of the patients must be taken before they are considered for participation in the study.
- Patient identifying information, such as names, initials, hospitals numbers, or photographs should not be included in the written descriptions.
- Patient consent should be obtained in written and archived with the author.

2. Protection of Human Subjects and Animals in Research:

- All the procedures must be performed in accordance with the ethical standards of the dependable ethics committee both (Institutional and National) on human experimentation and the Helsinki Declaration of 1964 (as revised in 2008).
- When reporting experiments on animals, authors must follow the institutional and national guidelines for the care and use laboratory animals.
- When conducting experiments on Human subjects, the relevant ethics committees must have obtained appropriate approval.

3. Conflict of Interest:

- All authors must disclose any financial and personal relationships with other people or organizations that could improperly manipulate (partiality) their work. Examples of potential conflicts of interest include employment, consultancies, stock ownership, honoraria, paid expert testimony, patent applications/ registrations, and grants or other funding.
